

Please note that the automated query which is the source of most of this data cannot discern if a subject is in prison etc, therefore the TRAP score should be used to identify the nominals that Topaz are focussed on. If there is no score for a subject identified through the automated query it will be because they have not come to the notice of Topaz or they are a previously identified CSE victim who has turned 18. If you have any queries about the scoring please contact Topaz directly.

Person Name	Gender	DOB	Age	LPA	Predictive	Explainer Text
<h1>Sensitive/Irrelevant</h1>						

<p style="text-align: center;">DPA</p>	<p style="text-align: center;">Male</p>	<p style="text-align: center;">DPA</p>	<p style="text-align: center;">19</p>	<p style="text-align: center;">Bristol North</p>	<p>Significant Occurrences, Under 18 Associates, Over 18 Associates</p>	<p>Person is of interest to TOPAZ (Child Exploitation Team) as a tier 1 SUBJECT. He / She is considered as being a high risk to children (under 18) by involving them in CSE / CCE. Please see Occurrence number - Occurrence OEL re Subject trigger plan if he / she is arrested for any offence, found in company with any child (under 18) not being a family member or in any concerning circumstances involving children. Contact details for Topaz are contained in the Trigger plan. Consider opportunities to gain intelligence in every interaction with the Subject and submit the intelligence marked Topaz. Do not inform the subject that they of interest to Topaz.</p>
