Dear Sirs,

I have been under the historic childhood abuse inquiry since the 9th July 2015. Five weeks ago I attended the Child Abuse Truth Project.

On the 26th February 2015, after years of trying I obtained a 50 year inquest in a First Tier Tribunal. I have been trying for Justice since 1981 and for the last 6 years with [REDACTED] Police who have done nothing to help me gain justice.

The Tribunal's final decision notice is,

Answers to Questions

Reparation generally.

1. Results should be closure for Victims and Survivors.
2. My experience has been negative because I have not been put through the process.
3. This is the most important question all of your questions apply to a Victim's closure.
4. None declined for now.
5. The police have not investigated for 35 years.
6. I have not been able to pursue a civil claim. No one has ever helped me.
7. If you could advise me, now I have the result from the CICS made by a Court.
8. The advantage of a civil claim by me would be complete closure but again would the police have to investigate my proven claim.

9. The police have failed me, the doctors have failed me for some 50 years, not in the last 7 years, before this on my medical records there has been enough evidence of abuse.
10. I have not been able to obtain legal representation. No one has listened to me. Or to keep it simple no one has been interested.
11. Again as always in my case the doctors have not bothered with me only to offer mind altering drugs and the police and my own family have not been interested in my well being.
12. For whatever reason my doctor and the police have both obstructed safeguarding myself and other possible victims.
13. I could have had a better chance of justice if I had access to any legal representation, and or any advice.
14. It would be an absolute benefit.
15. If there were access to a civil lawyer who could advise and or liaise with the police investigation, and to make the police accountable, even the IPCC could not activate the [REDACTED] Police for me.
16. I am only aware of the CICS for reparation in the UK. No lawyer will see me because of no police action, not even to help me get police action.
17. I have not been able to get these services and no support for justice has been given to me, only from the CICS Tribunal.
18. Child abuse has long term health issues for those abused. There should be a point of origin for victims to stay, to be listened to, helped and treated with the respect they deserve.
19. Victims and survivors should have a voice now and not in 50 years as myself. I am a 55 year old male. I am responding as an individual.
