Antony Grey,  
DLAS.

Dear Antony,

I was pleased to see you again the other day, and only regret that I had to dash off without having a chance to talk to you after the meeting. Allow me, however, to thank you very much for your support at the NCCL agm, and in relation to NUPE etc.

I understand from David Grove that DLAS would like a PIE piece for "Uncensored", and we would very much welcome the opportunity of explaining the ways in which we have been muzzled.

I regret I don't really have the time to do this myself -- I'm up to the eyeballs in speaking engagements at universities etc, and I'm working flat out on a book on paedophilia I've been commissioned to do -- but Keith Hose has said he is willing to have a go, and he'll probably make a better job of it than me anyway. Hope it won't be too late if he has this done by about a week or two from now.

John Saunders phoned me earlier this evening, by the way, and said he had been talking to you as well. He is in a very embittered and dangerous frame of mind. I just hope he won't do or say anything that will hurt himself or anyone else, but on current form one has to fear the worst.

Anyway, I'll ask Keith to get a move on with the article. Hope this will be OK.

Yours sincerely
