**OPERATION CONIFER**

**BRIEFING PAPER**

**Introduction:**

This document has been prepared for sharing information with the Metropolitan Police Service following enquiries completed by investigators from Operation Conifer in respect of allegations that Police investigations conducted in the 1970's were halted by senior officers.

Operation Conifer is the National Investigation into allegations of non-recent child sexual abuse surrounding Sir Edward Heath. This investigation was led by Wiltshire Police with findings being made public in October 2017.

Following on from the release of findings into the public domain, Wiltshire Police received a number of phone calls from various sources offering additional information. One such call was from a journalist who identified that he had spoken to a retired officer who informed him of investigations into MP's were previously halted.
