

	2015	2016	2017	2018
Total Reports Processed	112,975	105,420	132,636	229,328
Confirmed CSAM Reports on URLs	68,092	57,335	79,589	105,047
Takedown notices issued (UK only)	34	23	32	31

7. The table below shows the number of reports received into the IWF from external sources. I would like to explain that this table includes reports of both Child Sexual Abuse Material and Non-Photographic Images.

Reports received into the IWF from external sources*				
*Some reports may contain multiple URLs which are not recorded here. These figures include both Child Sexual Abuse Material and Non-Photographic Images.				
Industry Members	881	948	1,177	1,096
Public Only	44,114	49,546	55,119	105,553
Other Sources, Including hotlines, Police and other NGOs etc.	1,032	657	2,098	2,463
Total Inbound	46,027	51,151	58,394	109,112
Average daily inbound based on 365 days	126	140	160	299

8. I can confirm that based on our 2018 statistics at the end of December 2018 our Image Hash list now contains 345,961 individual images and our keywords list contains 453 words associated with child sexual abuse images and videos.
9. I would like to take this opportunity to clarify what is meant by the reference to "106,830 public reports" in our 2018 annual report, page 27, and why this figure is different to that of 109,112 given in the table above.
10. When an external source (members of the public, law enforcement, IT professionals) use the IWF reporting portal, they are asked to tell us one two things they are reporting:
