3. However it was the other comments that indicated the school ethos of was to cover up any problems that the CP Strategy group wanted flagged with DCSF. Unfortunately no other information or explanation was provided, so we can't what exactly the comments refer to. As the letter was anonymous social services could not this up, so wanted the comment flagged up on file.
4. She informed me that the HT had appeared to cooperate fully and had attended the strategy meetings. The Group charged the HT with making appropriate arrangements for supervision for the individual and ensuring the all CP and safeguarding procedures are adhered to fully.
5. I agreed to make a note of our discussion to put on file.
