

DSM                   And you came across him what if, you'd done something bad or even when you hadn't done something bad.

RC-A11               Yeah I mean.

DSM                   He was .....

RC-A11               I, I got caned by him every week for two years.

DSM                   Right and where did he.

RC-A11               Practically every week after about the first six months, he was, it would be you know "Come here", you know, and he'd be rubbing my bum and stuff like that, and trying to get me to take my trousers down and pants.

DSM                   Okay, where would you go to see him.

RC-A11               Upstairs in his study.

DSM                   Okay, so when you came up you done some, presumably something wrong or somebody's reported you, and you've been .....

RC-A11               It was always a report card. He put me on a report card and nothing I ever did was satisfactory.

DSM Okay, so you would go up to his study, what would happen in his study then.

RC-A11

Well you'd get caned for coming top of set one at maths. You'd get caned because **Irrelevant** Get caned because even though you only need B's or C's to not get caned, you've got A's and you've got one B, so I'm gonna cane you that cos he's you know but it was all about trying to get my trousers down. Whether or not he actually wanted to penetrate me or not, I don't know.

DSM Okay what actually happened when you say that he was, it was all about getting your trousers down.

RC-A11

It was always that, he'd want to get my trousers down to cane me to make sure I didn't have a book at the back of my trousers, so even though he'd felt my backside, to make sure there was no books in there, he wanted to take my trousers down to make sure there was no books in there and my underpants.

DSM So what would he say to you.

RC-A11

"Well my son what do you think we should do about this, do you think I should, we, I should cane you or can you think of something else we should do", "Don't know Sir".

DSM

And then what would happen.

RC-A11

He'd, I'll show you, bend me over the chair, it would be a hard chair like that, I used to have to put my hands right at the bottom of it, so basically I'd be like that with my toes.

DSM

Okay. Just put it on the floor, yeah.

RC-A11

And he'd lift up the back of my jacket like that and but on the way he always trying to get my pants off, you know, to telling me to take my pants off. Touching my bum.

DSM

And did he give a reason for telling you to take your pants off.

RC-A11

To make sure there's no books there.

DSM

Okay....

RC-A11

I said "You know there's no books there".

DSM

And what did he say to that.

RC-A11

"If you don't take your trousers down, you're getting 6 instead of 3", "If you give me 6 I'm not taking my trousers down". ....and you know.
