Dear Abbot Martin,

Further to my telephone call today, I am enclosing my latest access statement as you requested, it has been a vicious circle while supporting **RC-A595** using my access card for necessities, while paying loans and debts, still owing.

Perhaps it would be better if you would please just return the fees that my husband and I paid for **RC-A595** to be educated, like my daughter who was educated at **DPA** school and went on to achieve a degree.

RC-A595 had to leave your school with no education plus emotional problems for the past 20 years, including his father **DPA**, leaving me to continue to support **RC-A595** on my own.

My daughter has a degree, a stable family, 2 young sons, my other son is nearly a fully qualified **DPA**, no backing of a father. **RC-A595** is an uneducated man with no prospects.

I am not a charity case, I just want return of fees
for which we paid, giving disease, for myself and
in particular for the trauma it caused my husband

I look forward to a phone call or acknowledgement
soon.

Thanking you

Yours sincerely

Mother of RC-A595

End.
