

**TARIAN REGIONAL ORGANISED CRIME UNIT (ROCU)  
CHILD SEXUAL ABUSE/EXPLOITATION (CSAE) THREAT UPDATE**

**Date:** September 2019

**Reporting Period:** 01/09/2019 – 30/09/2019

**Introduction**

This All-Wales CSAE Threat Update provides an ongoing update on all relevant CSAE related activity across Wales. This includes an update on Intelligence, Operations, Organised Crime Group Mapping (OCGM) and other law enforcement activity relevant to the threat from CSAE in Southern Wales.

The CSAE Threat Update is sub-divided into the categories of RISK (information and intelligence), RESPONSE (current strategic and operational activity) and RESULTS (arrests, performance updates and outcomes).

Data used within report has been taken from South Wales Police, Gwent Police, Dyfed Powys Police and North Wales Police crime and intelligence systems, as well as from the national network of regional CSAE Analysts.

Data for South Wales and Gwent has been extracted from NEXUS. Crime data contains all crimes recorded under the stats classification by specific child sexual offence Home Office codes. All intelligence data for South Wales and Gwent is extracted from NEXUS and run through a macro which searches by keyword identifying the relevant logs for perusal. Dyfed-Powys and North Wales data is extracted by the force and submitted to the region for analysis. Accuracy of this information may be subject to interpretation and may contain discrepancies. This area is currently under review with ongoing analysis in order to improve data quality.

The process by which the CSAE update is completed is still in review; which may lead to slight changes to the format used and the data contained within the report. All feedback on the report is gratefully accepted and this, along with any other queries should be directed in the first instance to Regional CSAE Coordinator – Hannah Dicks.
