**MR THEAKER'S REPORT**

1. I met with Mr Osmond 22 October. He reported little progress. The status of the report remained uncertain and nothing had gone to the Social Services Committee. The divergence is that the report received was originally thought to be an "interim report" but the LA had subsequently been advised that it was only a draft.
2. I believe that the group a) did not get all its members' written contributions in b) may not therefore all agree the report as it now stands.
3. Mr Osmond reported that the Chief Executive had, on 22/10 decided to set the group a deadline to sort it out. Mr Osmond felt that members were getting disillusioned and that therefore "phase II" might never get off the ground.
