Detective Chief Superintendent

An investigation is currently being conducted into allegations that a number of persons at one time employed by Social Services sexually abused children placed into the care of the London Borough of Lambeth

The police investigation is code named Operation Bell and is being conducted from Gipsy Hill Police Station under the direction of Detective Superintendent Tomkins and Detective Inspector Randall.

The principal suspect is Leslie Paul, d.o.b. [DPA] 51, [DPA] [DPA] Paul has twice been arrested in connection with indecent assaults on boys and is presently on bail to return to LG on 8th December 1992. On that occasion, he will be charged with several offences of indecent assault on young males and indecency with or toward a child under 14 years of age.

During the course of searching Pauls address, a large quantity of homosexual pornography was seized. As a result of subsequent enquiries made, and indeed, as a direct consequence to what police have been told by a victim of indecency, it is the firm belief of the investigating officers that Paul is concerned in a commercial enterprise involving male paedophilia.

In order to pursue this line of enquiry, it is necessary to establish the identities of other persons concerned with Paul in this commercial enterprise.

Paul has a private telephone installed in his premises, the number being [DPA]. He is known to use this telephone to contact other persons concerned.

It is therefore suggested that a suitable letter be sent to British Telecom requesting that a record of calls facility be established to identify the locations of telephone numbers dialled from Paul's private telephone.

I have liased with the appropriate authority within British Telecom, and I am given to understand that such a facility may be installed
