DIRECTOR

I refer to the report of the management investigation into Parents of LA-A26's allegation of child sexual abuse to LA-A26 and have now read the report.

I require the charge of gross misconduct in disciplinary proceedings to be brought against LA-F12 to be instituted with all possible speed and certainly no later than the end of next week, bearing in mind the termination of LA-F12's temporary contract on 14.9.86.

I would like you personally to assist Waveney Williams in the preparation of management's case, based on the report and evidence to the panel. If it is felt to be essential to our case, to call Anne Bannister to speak to her private and confidential report to the panel, this will need to be cleared with Jim Harding, the Child Care Director of the NSPCC.

I am writing to Parents of LA-A26 informing them of my decision, and copying this to the Chair of DMS, CE, DMS, Chief Solicitor and SADSS and the Leader, for their information.
