

Given the sensitivity of this situation and the fact that appropriate action is being discussed and implemented, I would ask you to ensure that your Report does not receive a wider circulation than that listed on the back page and would also request you not to undertake any independent action.

I am copying this letter to all those whom you list as having received a copy of the original Report and to the Acting Director of Social Services with whom the Report has also been discussed (he received a copy from Dr. Bullough).

Please do not hesitate to contact me if you have any queries.

Yours sincerely

DPA

Director of Education
