Dear Mrs Mallor

I was sorry to hear that you had not been well. As you know I am rather anxious that we should be able to close the chapter of Knowl View and was hoping that your visit and report might be the means for doing that. I might add that I have no immediate cause for anxiety: things seem to have settled down but that is not always a safe indicator for the school.

I understand that the school contacted you again recently for a revised date for a visit and that you feel you may not be able to visit before the school holidays in July. Could you let me know whether this is the case. I shall have to report to Education Committee in the July cycle on the long term future of Knowl View and that means that if you cannot visit before then I shall not be able to meet the Committee timescale.

I do understand if it is simply not possible to fit it into your diary - one cannot do everything. From my point of view you are the ideal person to do the follow up report but if it is not possible, I would be grateful if you could recommend someone else.

Yours sincerely

DIANA CAVANAGH
Director of Education
