Councillor Moffat extended a welcome to everyone attending the meeting and went on to give a brief resume to the background of the report, copies of which were then circulated to those present. It was explained that Mrs Mellor would present her report and that questions on any issues or concerns would be welcomed but the copies of the report would be collected at the close of the meeting.

Mrs Mellor introduced her report and indicated that before undertaking the investigation she had taken instruction from the Director of Education and the Chief Executive and Town Clerk. The opportunity had been given to all staff members, prior to each interview taking place, to read the aims of the investigation. Mrs Mellor stressed that she did not see her investigation and subsequent report as an exercise in which blame should be attached or apportioned to any person(s) but as one which should be viewed constructively and promoted as a way forward for the future. Additionally, she stated that she had deliberately kept the report anonymous.
