

NAME:
ADDRESS:

[REDACTED] 13 years [REDACTED]
DPA

Sheet No.

[REDACTED] uncle, [REDACTED] [REDACTED] CASE RECORD (give address) came into office to see Alec. I believe Alec visited last week and is aware of situation.

[REDACTED] ran away from home about one week ago and is said to have told the police that he did this because his dad was going to belt him. He is said to have been stealing from home.

It seems that the police did find him once, but he absconded again.

Parents will not have him back when he is found.

I told him little could be done until the police actually picked him up. If parents would not have him back, then they needed at that point to discuss with us.

I spoke generally that RIC, if to happen, would be via discussion at panel.

[REDACTED] was out with Mr [REDACTED]. He was said to have 'quietened down' at home and now to be less of a problem.

Mr [REDACTED] left none too happy, threatening to 'dump' [REDACTED] eventually at the office.

Discussion with Steven Cohen, Head of Welfare at Knowl View - says that current situation is - [REDACTED] has [REDACTED]. Not in school. School is having difficulty coping with him and are proposing he moves up to an older class where more conventional behavioural methods might be employed. Steve Cohen seemed to think that the [REDACTED] which may have been contracted as the result of rent boy activities, constituted activity which would result in us removing him from home and placing him in another school out of Rochdale.

I pointed out that we did not have the powers statutory or otherwise, nor would it be desirable as he would need and desire contact with his home. On those contacts with his home (home visits to Rochdale) he may or may not continue his suspected prostitution. However, this would be the case in local authority care. Discussed with Sheelagh re appropriateness of a conference. Agreed it would be useful.

[REDACTED]'s deferred sentence has been brought back to 26 June from July following additional offences. Home visit arranged 19th June and IT referral 20 June.

27.6.90

Home visit after previously aborted visit. Only just managed to catch [REDACTED] who was half an hour late for our appointment. Discussed our recommendation for [REDACTED] M [REDACTED] wants some sort of reparation or CS for [REDACTED] but the whole business is unlikely to be organised, particularly in view of the negativism taken towards [REDACTED] by school. Mr [REDACTED] informs me that no particular steps were taken by Dr PIO.....
