

Cont'd....

Informed him I would get in contact with them about transport for [RO-A10] to get him to Attendance Centre on Saturday. Later phoned to confirm that I had arranged transport.

31.1.91

Phoned D S Goggins at Rochdale Police about [RO-A10]. He was not available. Again left a message for him that he get in contact with me.

6.2.91

Phoned D C Goggins re [RO-A10]. Asked him for some clarification on the exact details of [RO-A10]'s involvement in sexual activities around Rochdale Bus Station as there seems to be some confusion between Knowl View and myself about these details. He was not clear how often [RO-A10] had been involved in these activities, however, it was clear that he had been approaching men in the toilets and receiving 50p for masturbating men. He feels there was an incident in March 1989 which I was aware of and he feels [RO-A10] may have been involved in a number of incidents between January and May 1990. As far as he was concerned [RO-A10] has not recently been involved. At present the police are monitoring the situation at the toilets and would be picking up anyone thought to be involved in these kinds of activities.

In brief then on 9 March 1990 P C Bottomley picked up [RO-A10] and others from Rochdale toilets as there had been complaints about boys importuning at the public toilets. On 21 May 1990 [RO-A10] admitted that he had masturbated a man in the toilets and admitted he had been involved in previous incidents. To my knowledge he was potentially involved in masturbating a man in Rochdale toilets in March 1989 and being involved in such activities in [DPA] around March 1989 whose name may have been Ali.

6.2.91

Phoned [DPA]. It would seem that [RO-A10] has been doing well. The psychiatrist has had some time with [RO-A10] and he feels there is no significant emotional disturbance there. Knowl View however have not been in contact since before Christmas. Step-dad has been in contact and [RO-A10] has been very pleased with that. Home contact going well. They feel the assessment of [RO-A10] will be completed some time in March. Access to mum is now every other weekend.

February 1991

Phoned Knowl View to enquire about their contact with [RO-A10]. Steve Cohen not available. Asked that he get in contact with me.

14.2.91

Visited [RO-A10] at [DPA]. No significant change. Things continuing to go well. However it is clear that [RO-A10] wants to return to Knowl View despite his awareness that [RO-A24] will not be there soon and a
