Dear Paul

Overview Report - Name Redacted

Thank you for sending me a copy of the report concerning Name Redacted and the services she received prior to her death in 2002. I enclose some brief observations.

Clearly the report outlines some significant failings in the service Name Redacted received and is a genuine attempt to understand what went wrong.

I know that Name Redacted case has prompted much serious thinking both in the ACPC and the agencies themselves. Hopefully the messages that come out fairly clearly from the report will lead to changes, which will benefit other young people in the future.

Yours sincerely

Ian Whitehead
Inspector
