Subject: Woodborough Rd Investigation

I have interviewed [Name Redacted] as part of this investigation, originally in relation to allegations about [NO-F1] [Name Redacted]. She has described quite serious sexual harassment by [Name Redacted] which started when she was a student on placement there 1995/6 and lasted for about 2 months; verbal not physical. She did report this to Fran N'jie who she said appeared to take it seriously at the time, but nothing was ever done about it. I did mention this to Claire Ward who had asked me to check if [Name Redacted] now wants to pursue this, and the answer is that she does. I need to know how to take this forward; in the context of the wider investigation or separately?
