Dear George,

Since our telephone conversation I have arranged for some friends of Peter Ball's to collect signatures to a ~~letter~~^{warm} letter of support for him. My Press Officer + Eric Shogoy have consulted together and advise that it be sent to you and kept on file unless there is further publicity. If published now it would simply stir things up again.

I should also tell you that a private doctor who is a friend of Peter + Michael is investigating the case and has already become very suspicious of some of the people involved at the Brixton

LINNET PALACE

case. It is too early to talk about a conspiracy, but that
cannot be excluded. The detective cannot at present see any
ground on which a criminal charge could be brought.

I will keep you informed when there is news to say.

Yours etc
